

LED-Film

DG01-A8P40 | DG01-A8P65 | DG01-A8P100

No size restrictions, arbitrary cutting, we remember these words, this is the core meaning of the film screen. With its light weight, no steel frame structure, easy installation and maintenance, good permeability and other characteristics. The LED-Film screen match the glass curtain wall very well.

Key Features

Lightweight

Customizable Size

Extreme Transparency

Enhanced Aesthetic

Applications

Coffee Shop

Mall

Automatic Door

Clothing Store

Specifications

Display			
Model	DG01-A7P25A32	DG01-A7P25A32	DG01-A7P25A64
Pixel Pitch	31250 dot/m ²	23668 dot/m ²	10000 dot/m ²
Dimensions	960 x 256 mm	960 x 208 mm	960 x 320 mm
Weight	6 Kg/m ²		
Transmittance	60%	55%	85%
Brightness	≥4000cd/m ²	≥5000cd/m ²	≥5000cd/m ²
Refresh Frequency	≥3840Hz		
Maximum Power	800w/m ²	800w/m ²	600w/m ²
Average Power	300w/m ²	300w/m ²	200w/m ²
Maintenance Method	Front / rear		
Working voltage	DC5V		
Protection level	IP30		
Viewing angle	H≥150° , V≥150°		
Input voltage	SC 95V - 240V		
Operating Temperature Range	(-20) ~ 65°C		
Operating Humidity Range	10% -90% RH		
Service life	≥100,000 hours
